RE: Records Search for Baldwin Hills Crenshaw Plaza Redevelopment

Dear Mr. Wulkan,

As per your request received on March 19, 2009, a records search was conducted for the above referenced project. The search includes a review of all recorded archaeological sites within a ½-mile radius of the project site as well as a review of cultural resource reports on file. In addition, the California Points of Historical Interest (PHI), the California Historical Landmarks (CHL), the California Register of Historical Resources (CR), the National Register of Historic Places (NR), the California State Historic Resources Inventory (HRI), and the City of Los Angeles Historic-Cultural Monuments (LAHCM) listings were reviewed for the above referenced project site. The following is a discussion of the findings.

Due to the sensitive nature of cultural resources, archaeological site locations are not released.

Hollywood, CA. USGS 7.5' Quadrangle

ARCHAEOLOGICAL RESOURCES:

Three archaeological sites (19-000080*, 19-000171, and 19-001336*) have been identified within a ½-mile radius of the project site. Two sites are located within the project site. No sites are listed on the Archaeological Determination of Eligibility (DOE) list. No isolates have been identified within a ½-mile radius of the project site. No isolates are located within the project site.
(* = Located within the project site)

HISTORIC RESOURCES:

Two additional cultural resources (19-169870*, and 19-188263*) have been identified within a ½-mile radius of the project site. Both cultural resources are located within the project site.
(= Located within the project site)*

A review of the historic maps – Santa Monica (1902, 1921) 15' USGS - indicated that in 1902, there were many fresh marshes and streams in the area. One improved road and two buildings were

present. The area is covered by the place name of Paso de la Tijera. In 1921, there was some development in the area. The Pacific Electric Railroad ran through the project radius. Several buildings and roads were present. Two streams were in the area and the only place name remains Paso de la Tijera.

The California Point of Historical Interest (2008) of the Office of Historic Preservation, Department of Parks and Recreation, lists no properties within a ½-mile radius of the project site.

The California Historical Landmarks (2008) of the Office of Historic Preservation, Department of Parks and Recreation, lists no properties within a ½-mile radius of the project site.

The California Register of Historical Resources lists two properties within a ½-mile radius of the project site (see enclosed list for properties marked with a +). These are properties determined to have a National Register of Historic Places Status of 1 or 2, a California Historical Landmark numbering 770 and higher, or a Point of Historical Interest listed after 1/1/1998.

The National Register of Historic Places lists no properties within a ½-mile radius of the project site.

The City of Los Angeles Historic-Cultural Monuments lists four properties within a ½-mile radius of the project site (see below).

No. 487 Sanchez Ranch
Portions of the adobe structures were built in 1790 as part of the Rancho La Cienega o Paso de la Tijera. Archaeological evidence indicates a prehistoric Native American village on this site. Located at 3725 Don Felipe Drive. Declared: 5/1/90
19-157363

No. 620 Leimert Plaza
4395 Leimert Blvd., Los Angeles, CA

No. 679 Maverick's Flat
4225 – 4225 ½ South Crenshaw Boulevard, Los Angeles, CA
(No further description is available)

No. 688 Holiday Bowl
3730 S. Crenshaw Blvd., Los Angeles, CA
(No further description is available)

The California Historic Resources Inventory lists 39 properties that have been evaluated for historical significance within a ½-mile radius of the project site (see enclosed list).

PREVIOUS CULTURAL RESOURCES INVESTIGATIONS:

Sixteen studies (LA597*, LA751, LA1508, LA2838*, LA2967, LA3019*, LA3090, LA3501*, LA3577, LA3583, LA3587*, LA3854, LA5359*, LA6407, LA6423, and LA9428) have been conducted within a ½-mile radius of the project site. Of these, six are located within the project site. There are 33 additional investigations located on the Hollywood, CA. 7.5' USGS Quadrangle that are potentially within a ½-mile radius of the project site. The reports are not mapped due to insufficient locational information.
(= Located within the project site)*

RECOMMENDATIONS

It appears that most of the natural ground surface within the study area is obscured by urban development; consequently, archaeological surface finds are unlikely. Based upon the known archaeological sensitivity of the project site and the surrounding area, buried prehistoric or historic cultural resources may be present. Therefore, in order to avoid damaging any buried resources, archaeological monitoring of all ground disturbing activities is recommended. It is also recommended that the Native American Heritage Commission should be consulted to identify if any additional traditional cultural properties or other sacred sites are known to be in the area.

The professional consultant you retain may request the records search map, archaeological site records, and bibliography from the Information Center referencing the SCCIC number listed above for a fee (per the fee schedule). Any resulting reports by the qualified consultant should be submitted to the South Central Coastal Information Center as soon as possible.

If you have any questions regarding the results presented herein, please contact the office at 714.278.5395 Monday through Thursday 9:00 am to 3:30 pm.

Should you require any additional information for the above referenced project, reference the SCCIC number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Sincerely,
SCCIC
